

Welcome to OWAC! Operating Within A Cloud!

'OWAC: Where The Sky's The Limit!'

Are you ... Serving students and consumers who must use cloud-based Apps to complete classroom and/or employment specific tasks?

Are You ... Struggling to comprehend precisely what cloud computing is?

Are You ... Trying to figure out what opportunities cloud computing offers?

Are You ... Trying to figure out what potential challenges cloud computing presents?

Are You ... Uncertain as to which assistive technologies are best for interacting with The Cloud?

Are You ... Uncertain as to when you should introduce them?

If you answered "Yes" to any of these questions, then **The OWAC Professional Development Workshop** was designed for you.

The OWAC Professional Development Workshop is scalable, and as such can be delivered onsite, in-person, or remotely, via the internet. **The OWAC Professional Development Workshop:**

- Defines "The Cloud" in easy to understand terminology, using easy to understand analogies.

- Describes the relationship Apps have with The Cloud, for Apps designed to operate within a cloud.
- Defines mobile and desktop platforms for interacting with these Apps.
- Defines key assistive technologies for accessing these Apps.
- Provides strategies for "searching", "storing", and "syncing" information.
- And provides strategies for "sharing", and "socializing" with sighted peers!

The OWAC Professional Development Workshop marries decades of assistive technology know-how with the fast-paced expectations of a predominantly sighted world.

The presenter of The OWAC Professional Development Workshop, **Mr. Larry L. Lewis:**

- Has 40 years of assistive technology experience.
- Has served the assistive technology industry for nearly a quarter century.
- Offers practical guidance for overcoming expectations set by sighted managers and fellow business associates.
- Embraces evolving technological trends while they are unfolding.

For **onsite presentations** The OWAC Professional Development Workshop is a one day workshop designed for groups of 20-30 educators and/or rehabilitation professionals.

For **remote presentations**, The OWAC Professional Development Workshop is scalable to one half day virtual sessions for larger groups, as this format requires less hands-on training of assistive technologies. Virtual sessions require an internet connection and a means of connecting and projecting via a Skype video call. The same content is covered within both the onsite and remote deliveries of The OWAC Professional Development Workshop.

Introductory pricing for The OWAC Professional Development Workshop, which includes orders received by or before December 31, 2016, is as follows:

OWAC Onsite = \$1,000.00 USD + Pre-approved travel expenses.

OWAC Remote = \$500.00 USD

For questions, or to schedule your OWAC Professional Development Workshop, email training@flying-blind.com or call **+1 (216) 381-8107** today!
